New York Life Insurance Co.,

112 AND 114 BROADWAY.

THIS is one of the oldest institutions of the kind in America, having been chartered in 1841, and commenced business in May, 1845.

EVERY ONE SHOULD ENSURE.

While we live we may protect those dependent upon us; but when death severs the tie of all others most dear, it is a consolation to know that our prudence and foresight have made provision for the wants to which we can no longer minister; and the man who has the power, but neglects the opportunity, of providing in this way for the comfort and independence of his family, fails in the duty which he owes to them and himself. Therefore, let every one who has not obtained a policy of Insurance, upon his life, no longer neglect this imperative duty. GREAT CARE SHOULD BE MANIFESTED IN THE SELECTION OF A COMPANY. The

NEW YORK LIFE INSURANCE CO.

Offers the following highly important essentials:

It is a strictly Mutual Company;
It has had Twenty Years' Business Experience;
It has large Accumulated Assets;
It gives Liberal Assistance in the Payment of Premiums;
Its Dividends are declared Annually;
It is prompt in the Payment of all Losses;

IN FACT,

Special care in the selection of its risks, strict economy and a safe and judicious investment of its funds, emphatically characterize the management of this company.

Assets over

$4,500,000.

Annual Dividend, January 1, 1865,

50 Per Cent.

Total Amount Returned Premiums (Dividends) paid

$1,700,000.

Total Amount Claims by Death paid,

$3,500,000.

During its existence it has issued

Over 36,000 Policies.

TEN-YEAR NON-FORFEITING POLICIES.

The New York Life Insurance Company originated, and was the first to bring before the public, the Ten-Year Non-Forfeiting Plan, which has so fully commended itself to the judgment of thinking men that it has become the most popular mode of insurance, and is rapidly superceding the old method of lifelong payment. It has received THE UNQUALIFIED APPROVAL OF THE BEST BUSINESS MEN OF THE LAND, large numbers of whom have taken out policies under it as an investment

TEN YEAR NON-FORFEITING PLAN.

A party ensuring by this table, after the second year, cannot forfeit any part of what has been paid in, and his policy becomes a source of income to him while living.

ANOTHER NEW FEATURE.

TEN YEAR NON-FORFEITURE ENDOWMENT POLICIES.

The New York Life Insurance Company have recently prepared A NEW TABLE, BY WHICH THE PREMIUMS CAN ALL BE PAID IN TEN YEARS AND THE NON-FORFEITURE BENEFIT ALSO SECURED. These policies are coming into general request. As secure and profitable investment for one's declining years, they deserve the attention of all. A party ensuring by this table the amount is received by the assured himself, upon his attaining a specified age, while full provision is made for death occurring prior thereto.

Policies Issued on all the Usual Forms.

INSURANCE AGAINST ACCIDENTS.

THE ORIGINAL

Travelers Insurance Co.,

OF HARTFORD, CONN.

Capital, - $500,000.

Insures Against

ACCIDENTS,

OF EVERY DESCRIPTION,

CAUSING LOSS OF LIFE OR BODILY INJURY.

THE TRAVELERS INSURANCE COMPANY was organized under a charter granted by the Connecticut Legislature of 1863, and amended by the Legislature of 1864, for the specific purpose of effecting INSURANCES AGAINST ACCIDENTS, of whatever kind or description, whether they occur in travelling by railroad, steamboat or stage-coach, walking in the street, at work in the shop, or sitting by the domestic fireside, whether riding, boating, hunting, fishing, shooting, swimming, cricketing, surveying, engineering, whether working, or playing, sleeping or waking, in danger or out of (apparent) danger, at home or abroad—in every variety of circumstances in which mankind are ordinarily placed.

A General Accident Policy not only includes the risk in travelling, but also all forms of dislocations, broken bones, ruptured tendons, sprains, concussions, crushings, bruises, cuts, stabs, gunshot wounds, poisoned wounds, burns and scalds, bites of dogs, unprovoked assaults by burglars, robbers or murderers—the action of lightning or gun stroke, the effects of explosions; chemicals, floods and earthquakes, suffocation by drowning or choking. This company has now been for more than a year in successful operation; has issued over fifteen thousand policies, and paid numerous claims for compensation, has a directory of high character, and is managed with the prudence and sagacity which distinguish Hartford insurance companies; has an ample capital and large surplus, and its soundness and stability may be relied upon.

Despatches to the Evening Times.

Washington News—Rumored Altercation in the House of Representatives—Later from Mexico.

CINCINNATI, Jan. 15.

A Nashville despatch says that during a debate on the bill granting civil rights to negroes, in the House yesterday, a fierce altercation took place between Messrs. Steele and Amele. The lie was given and returned.—The House then adjourned in great confusion.

NEW YORK, Jan. 18.

The Times' Havana correspondent says: The latest advices are unfavorable to the Imperial cause. The inhabitants of Monterey feel no security in Maximilian's Mexican troops, and were leaving the city en masse. Over 30,000 are said to have left in three days. The merchants are sending their goods and valuables to San Luis.

News from the Department of Sinaloa are gloomy for the Imperialists.

Mazatlan alone remains in the hands of the Imperialists, and provisions for that city must pass through the revenue tax officers of the Republican Gen. Coronda.

On the 31st ult, a guerilla force 300 strong, among whom were said to be several Americans, captured a place named San Juan, in Guadalupe. After having completely destroyed it, they left to attack the town of San Miguel del Mesquitil. The guerillas were headed by two natives.

A French Mexican force had left Durango to attack the band.

The Imperialists claim a victory at the town of Comiettipa, in the State of Puebla. They also claim a victory over Gen. Requeles, who attacked Augango with over 8000. On the 10th ult, another place named Mavavatio was attacked by Requeles, but is said to have been repulsed.

The Indians had defeated the Imperialists under Lopez in Yucatan. They then attacked Senotillo but were repulsed. The Lieut of Engineers was killed, and the Empress sent a sum of money to his widow.

Lopez was to be tried by court martial.—Various other engagements with varied success on the other side had taken place.

The conspirators to assassinate the Minister of War had been arrested at the very moment of carrying the scheme into execution.

NEW YORK, Jan. 18.

The Herald's special Washington despatch says—

The President is considerably indisposed, but there is no fears of serious illness.

Senator Sherman has been nominated by the Republicans of the Ohio Legislature for re-election.

Gen. Gordon Granger is about to resign.

NEW YORK, Jan. 18

Colonel Henry M. Judah, of the Regular Army, died at Plattsburg in this State, on Sunday.

Schr Zamba, of East Machias, from Martinique, with sugar, is ashore at Old Cranberry Inlet, ten miles north of Barnegat.

NEW YORK, Jan. 18.

The Herald's despatch says:

The Canadian delegation are not in Washington in behalf of the Reciprocity Treaty, but to ascertain if it is not possible to establish friendly commercial relations between the two countries.

The despacth says:

The Secretary of the Treasury has decided that the prohibition of the importation of cattle from Canada, does not apply to the importation of dressed beef.

NEW YORK, Jan. 18

From Guadaloupe via Bermuda comes a report that the cholera prevailed there, the average deaths being 131 per day, in a population of 10,000.

A rumored proposed to cede to England the Island of St. Domingo, was creating some comment in Bermuda.

NEW YORK, Jan. 18

Per steamer Eagle and Morning Star from Havana, late Mexican news is received.

The Empress was enthusiastically received on her journey from Vera Cruz to Orizaba.

There was a slight shock of an earthquake at Vera Cruz Jan. 3d.

Heavy Imperial reinforcements were on the way to Monterey and Saltillo, and Gen. Jescingroes had been ordered to resume active operations in connection with Mejia, so as to secure speedy pacification on the Rio Grande.

NEW YORK, Jan. 17

The Sociedad of the 3d inst. says:

It is to be feared that trouble will occur at Matamoras, not with the government of the United States, but with federal troops who have openly sympathized with the Juarists, and given them material aid. The reinforcements reaching Mexico from Europe during the last week in December numbered 1200.

An earthquake was severely felt at Orizaba. Much damage was done, and several lives were lost. There was a severe shock at Puebla, and a slight one in the city of Mexico.

Advices from Tculon state that the Liberals were raiding through the country, capturing Imperial supplies and horses. A force was to be despatched from Merico to pursue them.

WASHINGTON, Jan. 18.

The true story of the attempted assassination of Senator Wade, partakes rather of the character of face than tragedy.

The Washington correspondent of the N. Y. Herald says:

A lusty, half-cracked individual, well-known in circles lower than Mr. Wade's, did call on the Senator, and importuned him for some sort of recommendation, more after the manner of a big, raising boy, than a desperate, bloodthirsty man. Mr. Wade exercised him with a kick, whereupon he took himself to Wilson, and told that gentleman, "If the righteous are scarcely saved, where will the ungodly and the sinner appear?" In the whole sermon there was no reference to "politics." Being asked after service how he liked the sermon, he replied: "I didn't like it all. It was all politics. He meant we should understand the text to read.—If the Republicans are scarcely saved, where will the Democrats and the Rebels appear?" The ministers have to undergo various criticisms, but this is rather the most dubious premise for fault finding that we have heard of.—[Lewiston Journal.

THE ELEVENTH MAINE. A correspondent of the Portland Press furnishes a history of the Eleventh Maine which is soon to return to Maine and be mustered from the service:

The 11th Me., numbering 38 commissioned officers and 935 men, left our State on the 13th day of November, 1861, under command of Col., now Brig.-General, John C. Caldwell. It has since that time been on continual active service without returning, as so many others have done, to the State, receiving at various times 1,100 recruits to fill its depleted ranks, and numbering at present 31 officers and 300 men. The regiment took an honorable part in the peninsular campaign as a portion of Naglee's brigade of Casey's division, sharing largely in the battle of Fair Oaks and the seven days' fight. After remaining at Yorktown for some time, losing many men by sickness, it joined Gen. Foster's forces in North Carolina, accompanying them to South Carolina in February, 1863, and there remaining through the seige of Morris Island, during which time a detachment of its men in charge of the famous Swamp Angel Battery threw the first shells into the doomed city of Charleston. In April, 1864, they formed part of Butler's army, under the designation of the 3d brig. 1st div., 10th A. C. During this campaign the regiment took part in all the various engagements, gaining for themselves and for the brigade, which was then styled "The Iron Brigade," an enviable reputation. The most prominent of these engagements are as follows:—On the 9th, 10th and 16th of May, Richmond and Petersburg Turnpike, and on the 13th, 14th and 16th of the month, Drury Bluff. From the 17th of May to the 20th of June they were engaged at Bermuda Hundred, having daily skirmishes with the enemy. In July the scene changed to Strawberry Plains, and the next month to Deep Bottom, where, on the 14th, Captain Sabine received his death wound; on the 16th and 18th of this month they were at Deep Run and Fussell's Mills. At this battle the regiment lost 40 per cent. of its members in about three hours while stubbornly holding the rebel works in their front against repeated assaults of the enemy. At that time Col. Hill lost his arm and the gallant Lawrence his life. From August 26th to Sept. 25th they were in action before Petersburg; Sept. 29th and Oct. 7th at New Market Road; Darbytown Road October 13, and Darbytown and Charles City Road on Oct. 27th and 28th.

In 1865 for three days commencing March 30 they were at Hatcher's Run; at Fort Baldwin on the 2d, Rice's Station the 6th, Deer Creek the 7th, and Appomatox C. H. the 9th.

In the campaign of 1864-5, the regiment lost over 100 men and officers killed, and 325 wound. A great many officers and men also died of disease contracted in the field.

This regiment was one of those forming the 1st div., 24th A. C., which had the last shot at rebellion, receiving also the fire of their last gun. It has the very best name for fighting qualities, and also for neatness in camp. General officers could never speak too highly of it, and always considered themselves safe wherever they knew the 11th to be.

Of course in this hasty sketch it is quite impossible to do justice to either officers or men, or describe the achievements of our brave boys; but enough has been said to show that their record is no unworthy one, and that, individually as well as regimentally, they deserve our warmest appreciation and most grateful thanks.

The following is the

ROASTED GRASSHOPPERS. Among the choice delicacies with which the California Digger Indians regale themselves during the summer season, is the grasshopper roast. Having been an eye witness to the preparation and discussion of one of their feasts of grasshoppers, we can describe it truthfully. There are districts in California, as well as portions of the plains between Sierra Nevada and the Rocky Mountains, that literally swarm with grasshoppers, and in such astonishing numbers that a man cannot put his foot to the ground, while walking there, without crushing great numbers. To the Indians they are a delicacy, and are caught and cooked in the following manner:—A piece of ground is cleared where they most abound, in the center of which an excavation is made, large and deep enough to prevent the insects from hopping out when once in. The entire party of Diggers, old and young, male and female, then surround as much of the adjoining grounds as they can, and each with a green bough in hand, whipping and thrashing on every side, gradually approach the center, driving the insects before them in countless multitudes; till at last all, or nearly all, are secured in the pit. In the meantime smaller excavations are made, answering the purpose of ovens, in which fires are kindled and kept up till the surrounding earth, for a short distance, becomes sufficiently heated, together with a flat stone large enough to cover the oven. The grasshoppers are now taken in coarse bags, and, after being thoroughly soaked in salt water for a few moments, are emptied into the oven and closed in. Ten or fifteen minutes suffice to roast them, when they are taken out and eaten without further preparation, and with much apparent relish, or, as is sometimes the case, reduced to powder and made into soup. And having from curiosity tasted, not only of the soup but of the roast, really if one could divest himself of the idea of eating an insect as we do an oyster, or a scarimp without any other preparation than simple roasting, they would not be considered very bad eating even by more refined epicures than the Digger-Indians.—[California paper.

Nothing is so difficult to conquer as prejudice. Hence it is very hard for those men in the old slave States, who really intend to be just and kind to the negroes, to treat them with fairness in every respect. They have so long been accustomed to see the black man in a position of inferiority, from which there was no hope of escape, that many of them cannot bear to see him have a chance to compete with the white man on equal terms. They persuade themselves that it is best not only for the white man, but also for the black, that the latter should occupy a subordinate place, and he discouraged from the attempt to rise above it. Their reasoning is of the same kind as that by which the slaveholders used to excuse or justify holding the blacks in bondage. We are led to these reflections by reading the message of Gov. Swann of Maryland. He is an able, faithful, loyal magistrate, and has favored emancipation. He argues at length against negro suffrage, which does not surprise us, but then he says:

"Should the time ever come, as come it may, when the freedman, under the guidance, as I believe, of unwise counsels, shall insist upon equality in your governmental affairs, in your workshops, in all the varied competitions of labor and industry, I trust that I may not over-estimate the consequences of the irrepressible conflict which is certain to ensue, when the two races, from causes however trivial, shall stand in accepted antagonism towards each other."

He adds, and no doubt with sincerity, that "these views are presented in the interest of the African race, and with reference to the warnings of an unmistakable future." It is clear that he would exclude the negro not only from the polls, but also from "the work shops and other varied competitions of labor and industry." Could the blinding effect of an education in a slaveholding community be more strikingly shown? And we speak of this case, not because the sentiment expressed in the message is that of Gov. Swann in particular, but because we believe it to be the sentiment of a large class of men in what we used to call "border States." He speaks as a representative man. To us here it seems strange enough that a chief magistrate, who is truly desirous of the highest development of the industry and resources of his State should propose to shut out so intelligent a class of negroes as those in Maryland from "the varied competitions of labor and industry." What would he have them do for a livelihood? Would he have them all engage in work as laborers on the farms? A good proportion of them have always been mechanics. Are these to abandon their trades? If Maryland is to enter upon that prosperous career which we believe to be upon her, she need not fear that she will have any surplus of mechanical labor. If we remember rightly, the white caulkers in her ship yards drove off the black caulkers some months ago. How unjust and cruel was their course? Yet these words of Gov. Swann are calculated to encourage just such action, and to strengthen the very prejudice which causes it. We trust that Maryland will soon rise to a juster appreciation of the rights of the colored man and of her own true interests than is cherished by those of her sons who would exclude the emancipated negroes from the honest competitions of industry.—[Providence Journal.

The official despatches from United States agents abroad, received at the State Department by the last steamer from Europe, are favorable to American interests. The plans for the extension of European influence on our continent have received a death blow by the restoration of the Union. It is expected that the Mexican difficulty will be solved by the withdrawal of the French troops, of which there are increasing indications. There are grounds for believing that the State Department, at Washington, and the French Government, have an understanding upon the subject, which is said to date previous to the termination of the civil war.

A native East Indian physician has recently described a new drug which promises to be of some value in the treatment of bronchial affections. The plant from which it is obtained is called by the Hindoos "bakus," and is a common hedge shrub in Bengal and the upper provinces. The writer prepares an extract of the leaves, and administers it with great advantage in all cases of catarrh. When taken internally it gives rise to a sensation of warmth in the stomach, and in some cases increases the appetite, promotes expectoration when this is scanty, and diminishes it when excessive. It is considered to be an expectorant and anti-spasmodic medicine, and to have a specific action on the surface of the windpipe.

The city of Mexico is better supplied with water than any city in the world. It has two immense aqueducts—one seven miles long, and the other three—which bring the water from the mountains to the very heart of the city; thence by arteries it is distributed in every direction. There are also numerous Artesian wells in the city and its suburbs. By boring an average depth of forty feet, the water rises several feet above the surface of the earth, and flows in a very bold stream. In many instances the water is not at all brackish, but is as fresh and as sweet as though brought from the mountains.

The last anecdote of the late King of the Belgians is by no less person than William Cornell Jewett, who says that when he went to Europe on his "independent peace mission," he requested King Leopold to act as umpire between our government and the rebels, and that the astute monarch replied that "he would not put his finger between the bark and the tree."

ARREST OF MOSBY. The Richmond Examiner says that Col. John S. Mosby, was arrested at his home in Fauquier, a few days since, by military authority, and taken to Washington and imprisoned. He is charged with having hanged two federal soldiers in the Valley during the war, in retaliation for the murder of some of his men. The Examiner considers the arrest of this noted guerilla an "outrage," as he was paroled on the same terms as other officers of Lee's army.

HOUSE.

On motion of Mr. Brown of Hampden,

Mr. Cousens of Kennebunkport, by leave, introduced bill an act for the assumption of the municipal war debts by the State.

Mr. Otis of St. George called for the reading of the bill, and the same was read.

The bill is as follows:

An Act for the assumption by the State of of the Municipal War Debts.

Whereas, the several cities, towns and plantations of this State have incurred debts more or less onerous in putting down the rebellion, and

Whereas, it is just and right that these expenses should be borne by the whole country, and

Whereas, to that end it is first requisite for the States to adjust and pay the said debts of the several municipalities in the State; therefore,

Be it enacted by the Senate and House of Representatives in Legislature assembled, as follows:

Sect. 1. It shall be the duty of the State Treasurer as soon as may be after the passage of this act, to forward to the Treasurers of the several municipalities in this State suitable blank returns for expenses incurred for war purposes, and notify said Treasurers to make immediate returns of such indebtedness to his office, to be laid before three Commissioners who shall be appointed by the Governor and Council and sworn to the faithful and impartial discharge of the duties imposed by this act, and who shall commence their sitting at the State Capitol, on the second Tuesday of April next, and, after electing one of their number as chairman, shall proceed to examine the returns and accounts of the several cities, towns and plantations, and determine what amount is due to each for expenses incurred by them pursuant to the now existing laws of this State and of Congress for the suppression of the recent rebellion, and upon such determination shall furnish the State Treasurer with a list of said cities, towns and plantations, together with the amount found to be due to each, including interest, and thereupon the Treasurer and chairman aforesaid shall issue to said cities, towns and plantations, certificates of indebtedness as set forth in the following section.

Sect. 2. Upon such adjustment of their indebtedness, the State shall reimburse the several municipalities in this State for such indebtedness, by issuing to them severally certificates of indebtedness of a denomination of not less than one thousand dollars each, but amounting in the aggregate to the whole of such indebtedness, of said city, town or plantation, and signed by the Treasurer of the State and the chairman aforesaid purporting that the State of Maine owe to such city, town or plantation, or to their assigns, the sum expressed therein, bearing an interest of seven and three-tenths per cent. per annum, payable semi-annually, and such certificates may be made transferable on being endorsed by the municipal Treasurer and Clerk in their official capacity, and shall be redeemed by the State in ten years, or at an earlier period if practicable.

Sect. 3. Said Commissioners shall be allowed six dollars per diem for their services, and one travel to and from the place of sitting.

Sect. 4. This act shall take effect from and after its approval by the Governor.

Mr. Williams of Augusta moved that the bill be referred to the Judiciary Committee, which was agreed to.

Passed to be engrossed—An act additional to an act to incorporate the Forest City Sugar Refining Company; an act to incorporate the Skowhegan Hall Association.

On motion of Mr. Shepley of Portland,

Ordered, That the Committee on Federal Relations inquire whether any expression of opinion on the part of this Legislature be advisable in relation to a location in the State of Maine of the iron water docks required for the preservation of the iron clad vessels of the navy.

Mr. Granger of Calais, from the committee on the Judiciary reported legislation inexpedient on order relating to taxation of property in unincorporated townships. Accepted.

Same gentleman, from the same committee, reported favorably on bill relating to repairs of roads in unincorporated townships. This bill lies down under the rule to be printed.

Passed to be enacted—An act to incorporate the Gallatin Land, Coal and Oil Company of West Virginia; an act in addition to an act to incorporate the Maine Insurance Company.

On motion of Mr. Farrington,

Ordered, That the committee on the judiciary be instructed to inquire into the expediency of amending clause one, section eleven, chapter six of the Revised Statutes relating to the taxation of logs, timber, &c., by striking out the words, "if the owners occupy any store, shop, mill or wharf thereon, and shall not be taxable where the owners reside.

Some conversational debate took place between Messrs. Shepley, Brown and Farrington on the effect of the above proposed change in the law, but no objection was raised against the passage of the order.

Mr. Otis of St. George moved a reconsideration of the vote of the House accepting the report of the judiciary committee that legislation is expedient on the order relating to the taxation of property in unincorporated townships. He wished to look into the matter.

The motion to reconsider was agreed to, and the report was, on motion of Mr. Otis, assigned to Thursday of next week.

FOR THE CURE OF

COUGHS, COLDS, INFLUENZA, HOARSENESS, DIFFICULT BREATHING, AND ALL AFFECTIONS OF THE THROAT, BRONCHIAL TUBES AND LUNGS, LEADING TO CONSUMPTION.

This sovereign remedy is compounded from the favorite recipe of an Illustrious Physician and Chemist, who for many years used it with the most complete success in his extensive private practice.

He had long been profoundly impressed with the wonderful virtue of the honey of the plant Horehound, in union with the CLEANSING and HEALING properties of tar extracted from the LIFE PRINCIPLE of the forest tree *Abies Balsamide* or Balm of Gilead. For years he was baffled in his attempts to blend these great medicinal forces into such a union that the original power of each would be preserved, the disagreeable qualities of common tar removed, and the price of the compound be within the means of all. At last, after a long course of difficult chemical experiments, he found that by adding to these *few* other ingredients, each one valuable by itself, he not only obtained the desired results but greatly increased the curative power of the compound. This having been thoroughly tested by practice, is now offered to the general public as a safe, pleasant and infallible remedy.

Perry's Moth and Freckle Lotion.

☞ Chloasma, or Mothpatch, (also Liverspot,) and Lentigo, or Freckles, are often very annoying, particularly to ladies of light complexion, for the discolored spots show more plainly on the face of a blonde than a brunette; but they greatly mar the beauty of either; and any preparation that will effectually remove them *without injuring the text ure or color of the skin*, is certainly a desideratum. DR. B. C. PERRY, who has made diseases of the skin a speciality, has discovered a remedy for these disfigurations, which is at once prompt, infallible and harmless.

Prepared only by B. C. PERRY, Dermatologist, No. 49 Bond Street, New York, and for sale by all druggists in Bangor, by Warren L Alden, Whole sale Agent; price $2.00 per bottle. Call for PERRY'S MOTH AND FRECKLE LOTION.

TRACY'S

Patent Improved Gauge,

—FOR—

Hanging Gang Saws!

THESE GANG SAW GAUGES are superior to any other now in use. They save one third of the time over any of the old kinds, in changing, being made in sections varying from one fifth of an inch, to three inches, and can be set to any desired dimensions with perfect accuracy.

THEY ARE CHEAPER AND MORE DURABLE Than any other. Give a better bearing upon the saws, holds them straighter and in less danger, and pay their cost in time saved by changing, to say nothing of their convenience in being varied to any dimension required.

State, County, and Town Rights for Sale.

For further particulars apply to the Inventor at Brewer Village, Maine, or Messrs PALMER & JOHNSON, and THOMAS N. ELERY, Exchange Street, Bangor.

J. TRACY

To Whom it May Concern.

THIS MAY CERTIFY that we have each used the past season, Tracy's Patent IMPROVED GAUGES, for hanging gang-saws, and do not hesitate to say that the time saved in changing gauges during one season, will doubly compensate for the expense. The gauges are so arranged in regard that they may be changed to any desired thickness in a very few minutes, and with perfect accuracy. They are very durable, and likely to get out of order, and hold the saws much better than the old kind of gauges. We recommend them to owners of gang mills as being a time and money saving invention. Washington Matters!

Passage of the District of Columbia Negro Suffrage Bill by the House.

Further Partitniars of the Fight at Bagdad.

Meeting of the North Carolina Legislature.

WASHINGTON, Jan. 17.

The galleries of the House were densely crowded during the session to-day, and owing to the pressure heavy persons were unable to gain admission.

The colored population were present in large numbers. Every one, both white and black, were deeply interested in the subject discussed, viz: the extension of the elective franchise in the District of Columbia.

The vote on the passage of the bill was much larger even than its most sanguine friends anticipated, and when the result was announced, the applause on the floor and in the galleries, was almost deafening.

The bill, which passed the House, has yet to be acted upon in the Senate. It confers suffrage without other qualifications than has heretofore been applied to whites.

The Senate, in Executive session, confirmed Robert J. Von Volkenburg of New York, as Minister resident of the United States, to Japan, vice Chauncey M. Deferr declined.

WASHINGTON, Jan. 18.

Secretary McCulloch and Mrs. McCulloch entertained to-night, in a truly hospitable manner, a large and brilliant company including many persons of official distinction.

Speaker Colfax's first reception of the season took place to-night, and was, as heretofore, the scene of much social enjoyment. Many of those who spent the early part of the evening, at Secretary McCulloch's residence, were present at Mr. Colfax's toward the close of his reception.

NEW ORLEANS, Jan. 18.

A private letter from the Inspector of Customs at Clarksville, Texas, says the 113th colored regiment, under Col. Davis, took all the skiffs in his charge, crossed the river and fired Bagdad. They then began plundering the place and killing the people. The scene was indescribable. The negroes shot men down for refusing to give up their money.

A letter from Brazos, of the 7th inst, to The Times says:

Bagdad was captured on the morning of the 5th. The attacking party consisted of 60 men. They captured nearly 300 prisoners, half of whom turned Liberals and formed a garrison of the town. The attacking party then disappeared. The Liberals lost 4 killed and 8 wounded. The Imperialists' loss was 11 killed and 27 wounded.

Gens. Crawford and Escobado, on receipt of the above intelligence, started for Bagdad.

Gen. Weitzel ordered Colonel Hall, Ass't Revenue officer, not to allow any one to cross until the arrival of Escobado.

Gen Crawford arrived in advance of Escobado and assumed command.

Escobado requested of Gen'l Weitzel 200 men to preserve order, which was agreed to.

A French Corvette shelled the town on the 6th, all day, without damage.

Col. Mejia, Escobadd's post commander, has only about a dozen reliable men in Bagdad, the rest having joined Crawford, who has them on board a steamer, tied up to the bank of the river at Bagdad.

BOSTON, Jan. 18.

Spoken—Dec. 18th, lat. 23.45, longitude 1237, W., ship Good Hope, Miller, 32 days from New York for San Francisco.

Bark Samuel and Thomas, Lewis, arrived at New Bedford on the 13th, after an absence of only 25 months in the Pacific having taken on the voyage 700 bbls. sperm and 250 bbls. whale oil. She left her cruising ground off Gallipagos Island full and with 70 bbls. oil on deck, and proceeded to Tolcauano to land oil for shipment home intending to continue the voyage, but on account of the blockade by Spain, was not allowed to land the cargo and was forced to return home.

RICHMOND, Va., Jan. 18.

The Governor sent a communication to the House of Delegates to-day, endorsing a memorial of the New York and Virginia Steamship Company for compensation for two steamers, valued at $30,000, seized at the wharf in Richmond at the beginning of the rebellion.

TERRE HAUTE, Ind., Jan. 18.

Hon. John G. Davis, long a member of Congress from this district, died here this morning of apoplexy.

ST. LOUIS, Jan. 18.

Platte county, Missouri, has brought a suit against Col. Osborne and Dr. Carpenter for $50,000, with the view of cancelling the mortgage executed by the Western and Atchison & St. Joseph R. R. Co.'s in favor of Wm. C. Wetmore and J. A. Stewart of New York as trustees, to secure an issue of bonds amounting to $1,200,000 which it is alleged were fraudulently executed.

NEW YORK, Jan. 18.

RALEIGH, Jan. 18.

Thirty-Ninth Congress.

FIRST SESSION.

WASHINGTON, Jan. 18.

Senate.

Mr. Chandler offered a resolution authorizing the Secretary of the Treasury to direct the issue of American Registers to certain British built vessels owned by American citizens. Referred.

The committee on commerce reported unamended the House bill to extend the time for the withdrawal of goods from the public stores and bonded warehouses; also a bill to authorize the construction of a telegraph line between New York and the West Indies.

A joint resolution was reported and passed distributing the writing of Madison among the States and governmental departments.

A bill for the admission of Colorado as a State was reported.

A resolution was passed, inquiring the amount to be paid the Washington society of newspapers for government advertising.

The resolution for the appointment of Provisional Governors in the Southern States was taken up.

Mr. Nesmith spoke at length in favor of the reconstruction policy of President Johnson, opposed negro suffrage, and advocated a generous policy towards the South.

Mr. Wade argued against admitting the Southern States at present.

At conclusion of Mr. Wade's speech the bill investing powers in the Freedmen's Bureau was taken up and an amendment offered limiting possessory title to lands given to negroes by Gen. Sherman to three years.

Mr. Stewart took the floor in reply to Mr. Wade.

The bill giving the widow of President Lincoln the franking privilege for life was passed.

The Senate then went into executive session.

Adjourned.

House.

Mr. Jenckes reported a bill to establish a uniform system of bankruptcy throughout the United States. It was made a special order for the 30th inst.

Mr. Deland, from the committee on claims reported a resolution asking to be relieved from the consideration of all claims growing out of appropriation or destruction by the army and navy in suppressing the rebellion. No definite action on the subject was taken.

Mr. Lynde offered a resolution which was referred:—that all vessels once American, being placed under a foreign flag or register during the late rebellion, should be treated as foreign built vessels and never again allowed new registers.

A bill amendatory of the act granting lands to States to aid in the establishment of agricultural and mechanical colleges was reported. It extends the time for States to accept the provisions of the act.

The House then proceeded to consider the District of Columbia suffrage bill.

After debate a motion to lay the suffrage bill on the table was lost, 49 to 123. Bill passed without qualification, 116 to 52.

Adjourned.

The House Committee on Foreign Affairs to-day authorized Gen. Banks to report an appropriation of $175,000 for securing a proper representation of American products at the Paris Exposition of 1867, and for defraying the expenses of a Board of Commissioners to attend and report on the Exposition.

A clerk in the Quartermaster's Department named Jonas, said publicly on Monday, on hearing of the threats made to assassinate Senator Sumner, "I am not in favor of decapitation, but I would like to see Sumner sent to his long home." This was reported to the Secretary of War to-day. Mr. Jonas was notified that his services were no longer required by the Government.

Senator Sherman's friends have been in direct communication with Columbus, Ohio, this evening, and received despatches directly from the capital, in which the convention for the nomination of U. S. Senator was being held. On the first ballot, 47 being necessary for a choice, Sherman had 46, Schenck 28 and Bingham 16. On second ballot Sherman had 47 and was declared nominated.

C. W. Goddard of Maine was admitted to the bar of the Supreme Court to-day.—[Washington correspondence of the Boston Journal.

WASHINGTON, Jan. 17.

Gentlemen occupying prominent political positions are confident that all differences of opinion between the executive and legislative departments can be harmonized by the passage by Congress of a law granting qualified suffrage in this District, and of the two bills reported by Senator Trumbull to confer judicial and other powers on the Freedmen's Bureau, and to protect the inhabitants of all of the United States in the enjoyment of their civil rights. President Johnson will sign these bills if they are passed; and the Congress, having obtained every duly-elected loyal applicant for a seat.—[Special to Boston Journal.

—Lord Palmerston's personality was sworn under £120,000. Most of his property goes to his widow and her son.

LOCAL AND OTHER ITEMS.

—Professor Gunning's Lecture on Geology takes place this (Friday) evening, in City Hall, at 7½ o'clock. Tickets for the remainder of the course, fifty cents.

BANGOR MANUFACTURED BOX SHOOKS. We notice in a Matanzas Price Current that "Eleven thousand box shooks, A. M. Roberts & Sons brand, prime in all respects, retailed for 9 reals."

ENTRY THIEVES. Able bodied men and boys are perambulating the streets, entering every house, frequently without knocking, and if discovered, put on a lugubrious look, tell a frightful story, ask for money, old clothes, or even cold victuals, and then leave. If not discovered they steal whatever they can lay their hands on and decamp. Coats, hats, furs, gloves, and even bonnets and shawls have disappeared in this manner.—If the sums given in charity, were always wisely expended, the suffering from poverty in this city would be very slight. If a prudent man should be engaged to examine cases of reported suffering, and furnish relief to those needy and deserving, it would effectually put a stop to street begging.

BANGOR MECHANIC ASSOCIATION. The annual meeting of this institution, for the choice of officers, and other business, will be held at their rooms in Granite Block this evening at 7 o'clock. Every member should be present and participate in the election.

DRY HARD WOOD is selling in this market for $8,00 per, cord, but the excellent sleighing will reduce the price materially. It is coming in rapidly.

HIGH PRICES. All kinds of goods are going up, when everybody knows that they were too high before, and there seems to be no way to prevent it. White paper is almost as high now as at any time during the war, and there are no indications of a reduction in the price.

—Snow slides were frequent yesterday in the neighborhood of Main Street. One dandyfied looking little fellow had a pran new hat smashed over his eyes and badly dented, much to the amusement of the lookers on. It requires constant dodging to keep from being submerged.

—The splendid weather of yesterday, and the equally splendid sleighing, were enjoyed to their fullest extent. Everybody was out sleigh-riding, and every horse and sleigh in the city was in use. The Hampden road had its usual number of fast nags, while occasionally a team passed across the Bridge and up Main Street faster than the law allows. A snow slide caused a horse to run down State Street, and when directly in front of our office the sleigh collided with another in which a gentleman was leisurely riding across the bridge. The occupants were summarily tumbled into the snow, and both nags dashed through the streets to the great damage of the sleighs and danger to pedestrians. Fortunately no person was injured.

THE OIL REGION OF CANADA continues to be a spot of interest to speculators and operators, and new wells are constantly being struck, each new well adding to the rush of visitors. Capt. Flowers, Agent for the Grand Trunk is selling tickets to that locality by the way of Montreal.

KEROSENE OIL. The Lowell Courier says that the kerosene oil sold in that market is so poor that consumers believe it to be diluted and dangerous to use. Let them try the Portland Kerosene and they will have no further trouble, as that oil is manufactured entirely from pure Albert Coal, and is thoroughly tested before it is put upon the market. Howard & Bradley are the agents for Bangor, but the oil may be procured of nearly all the dealers.

—The Bath Times states that the Rev. G. W. Durell, Rector of Grace Church, in that city, has received calls from two prominent parishes in Pennsylvania.

—The Lewiston Journal states that colored domestics are being brought from the South for families in Lewiston, and give general satisfaction.

—The rapid increase of crime and the important agency which rum has in its increase, is tending to awaken an interest in the subject of temperance. New societies are being formed, and ministers in various localities are preaching upon the necessity of total abstinence. The field is broad and the demand for labor great.

GRAND DIVISION, S. of T. The quarterly session of the Grand Division of the State of Maine will be held in Bath on Tuesday afternoon next, at the hall of Long Reach Division. Social meetings and public meetings will be held during the session. Delegates will meet with a hearty welcome from their brethren at Bath.

—The horse "Bob Williams," formerly owned by R. T. Williams, of this city, has been sold recently to Mr. Griswold, of Boston, for $2200.

—A company just organized has purchased the water power at Minot Corner, as we are informed will erect a paper mill thereon at no distant day.—[Lewiston Journal.

VESSEL LOST. We have before reported the loss of barkantine "Hattie Morrison," of Phippsburg, with no special particulars.—It appears from information received from the U. S. Consul at Antwerp, that she was shattered to pieces by the severe gales of the 12th and 20th of December, in lat. 45, lon, 14, and was in a sinking condition when discovered. Captain Perry and seven men were taken off by a Dutch gallict. One man, Edward Brown of Boston, was washed overboard, and the Captain and two others severely injured. The Hattie Morrison was 528 tons, built at Phippsburg in 1865, and owned by Morrison & Perry of that place.

A colored boy lately in the employ of Mr. Charles P. Stellings, was arrested last evening for the theft of $370, from his employer. He was about to take passage on the steamer for Boston when arrested. The whole amount of money was found on him, and he confessed the robbery.—[Portland Star.

SUDDEN DEATH. On Thursday last Mr. Joseph Martin, of Naples, while returning home from a visit got out of the sleigh to walk up a hill. Before reaching the top of the hill he complained of his head, and got into the sleigh. In a few moments he pitched forward and expired. He was about 58 years of age.

The Great Worm Remedy.

IT has been said by more than one eminent physician that more sickness among children is the result of Pin Worms than all other causes;—that worms imitate the symptoms of most other diseases, often producing fatal results, without being suspected. From this cause of so much sickness, every family may have an effectual remedy, by procuring a bottle of
Dr. E. G. Gould's Pin Worm Syrup.
It will remove ordinary stomach worms oftener than any of the vermifuges in the market, and for Pin Worms it has no equal. It will relieve children or adults from all annoyance in twenty-four hours, and effect an entire cure when taken according to directions. It is mild, aromatic, and can be given to the youngest child with perfect safety. It improves the health by removing all impurities from the system.

Whig & Courier

To Steamer Katahdin.

On her last trip to the Penobscot for the season—Dec. 22, 1865.

BY H. L. WASHBURN.

Home to thy port, and thy moorings, Katahdin!
Firm are thy bulwarks, thy stanchions are tight,
Proving the hands that have built them bravely at bearing,
Over the billows this December night.

Cold o'er thy mountains the north wind is blowing,
While in the brow of Katahdin I ween
Brief are the days and the hoar frost is creeping,
Where blossomed the rose when thy valleys were green.

Many a heart thou hast rocked on the billows,
Daintily toseing the foam from thy prow,
Many a heart will breathe for thee blessings,
And a *God-speed* to thy nothern home now.

Hasten while thy pennon the cold night is greeting
Hie to thy winter berth over the main,
Come, when spring wakens thy forests and fountains,
Come to our waters, Katahdin, again.

THE CHILD'S ETIQUETTE IN TEN COMMANDMENTS. The following hints on Education, Etiquette, and Morals, from the pen of George Francis Train, are worth publishing: [Obey these and you shall have five dollars every Fourth of July, which you may give to the poor.]

I. Always say Yes, sir. No, Sir. Yes, Papa. No, Papa. Thank you. No, thank you. Good night. Good morning. Never say how, or which, for What. Use no slang terms. Remember good spelling, reading, writing, and grammar are the base of all true education.

II. Clean faces, clean clothes, clean shoes and clean finger nails indicate good breeding. Never leave your clothes about the room. Have a place for everything, and everything in its place.

III. Rap before entering a room, and never leave it with your back to the company. Never enter a private room or public place with your cap on.

IV. Always offer your seat to a lady or an old gentleman. Let your companions enter the carriage or room first.

V. At table eat with your fork, sit up straight; never use your toothpick (although Europeans do,) and when leaving, ask to be excused.

VI. Never put your feet on cushions, chairs or table.

VII. Never overlook any one when reading or writing, nor talk or read aloud while others are reading. When conversing listen attentively, and do not interrupt or reply till the other is finished.

VIII. Never talk or whisper aloud at the opera, theatre or public places and especially in a private room where any one is singing or playing the piano.

IX. Loud coughing, hawking, yawning, sneezing and blowing are ill-mannered. In every case cover your mouth with your handkerchief (which never examine—nothing is more vulgar, except spitting on the floor.)

X. Treat all with respect, especially the poor. Be careful to injure no one's feelings by unkind remarks. Never tell tales, make faces, call names, ridicule the lame, mimic the unfortunate, or be cruel to insects, birds or animals.

IMAGINARY ILLS. In confirmation of the oft repeated saying, that a man frequently suffers as much from imaginary evils as real ones, we extract the following paragraph from an exchange paper:

A New England farmer started one very cold day in winter, with his sled and oxen into the forest, a half a mile from home, for the purpose of chopping a load of wood. Having felled a tree he drove his team along side, and commenced chopping it up. By an unlucky hit he brought the whole weight of the axe across his foot, with a sidelong stroke. The immense gash so alarmed him as to nearly deprive him of all strength. He felt the warm blood filling his shoe. With great difficulty he succeeded in rolling himself on to the sled and started the oxen for home. As soon as he reached the door, he called eagerly for help. His terrified wife and daughter, with much effort, lifted him into the house, as he was wholly unable to help himself, saying his foot was nearly severed from the leg. He was laid carefully on the bed, groaning all the while very bitterly. His wife hastily prepared dressings, and removed the shoe and sock, expecting to see a desperate wound, when lo! the skin was not even broken. Before going out in the morning, he had wrapped his feet in red flannel, to protect them from the cold; the gash laid his open to his view, and he thought it flesh and blood. His reason not correcting the mistake, all the pain and loss of power which attends a real wound followed.

INFLUENCE OF FEAR. Many facts are given to show that fear and imagination exercise great and controlling effect on diseases. We select the following:

'A physician at St. Petersburg during the cholera epidemic in that city several years ago obtained of the authorities two criminals, who had been condemned to death, to do with them as he thought fit. One of these convicts was made to sleep in a bed in which as he was told, a man had had the cholera, and died of that disease, although such was not the fact. After a restless night the criminal was taken with all the symptoms of cholera, and died of that disease, declaring that he had caught it from the bed—a victim to his own fears. The other was made to sleep on a bed wherein a man had died but a few hours previously of the fatal disease. This fact, however, was unknown to the occupant of the bed, who arose in the morning refreshed by his sleep, remaining in perfect health. The stories will also occur to many, of men who, on being condemned by bleeding, were blindfolded, and after slight punctures with needles placed so that water would trickle slowly from the fancied wound. The men believing that they were bleeding to death, exhibited precisely similar symptoms to persons who were undergoing the reality even to death.

'Bob, that's a fine horse you have there, what's he worth?'

'Three hundred and fifty dollars.'

'Not so much as that.'

'Yes, every cent of it, and another fifty on the top of that.'

'Are you sure?'

'Yes, I'll swear to it.'

'All right.'

'What are you so inquisitive for?'

'Merely for assessing purposes. I am assessor for this ward, and only wanted to know what you rated your nag at.'

LAW IN RICHMOND. The following is a fair sample of the way what is called justice is dispensed in Richmond as reconstructed. It is the law there, when colored men have any concealed weapons, to punish them with thirty days in Castle Thunder and the confiscations of the weapons. If a white man commit assault and battery with intent to kill a colored person, he is punished with a fine of ten dollars, and unconditional release; and no one objects.

'My German friend, how long have you been married?' 'Vel, dis is a ting vot I seldom don't like to talk about but ven I does; it seems so long as never vas.'

Our STABLE is one of the best in the city—commodious, accessible and warm; and is attended by experienced and faithful Hostlers. It has a constant supply of pure water, and excellent hay, grown from our own farm.

The vegetables for the table, together with butter, milk, &c., are mainly furnished from our garden and dairy.

As we are the sole lessees and managers of the house for a term of years, we shall do our best to make a comfortable and agreeable home for all, both in the city and country, as well as those visiting Bangor from Boston and other localities out of the State.

It is invaluable to Nervous Sufferers, and a positive cure for Palsy arising from the abuse of Mercury or Lead.

It is a Tonic as well as an Alterative, and a sure protection from attacks that originate in change of climate, season or life.

LIVER COMPLAINTS and their combined symptoms, such as Lumbago, Jaundice, Rheumatism, Bilious Affections, &c. When caused by *Scrofula* (taint) this compound is a most effectual remedy.

DYSPEPSIA or INDIGESTION, is often caused by Scrofula, which deranges the stomach, and renders it unhealthy. Indigestion is not always caused by Scrofula, when it is, this Sarsaparilla Compound is a ready cure.

DR. KNIGHTS'

Oriental Hair Restorer.

After a long series of experiments, this article, as it is now offered to the public is believed to be the most perfect of its kind which science has ever devised. No pains have been spared to produce what has so long been demanded by thousands, who, prematurely grey; and others, who, in the season and yellow leaf of life, would retain, as far as possible, the semblance of youth. DR. KNIGHTS ORIENTAL HAIR RESTORER, after a few applications, *restores grey or faded hair to its original color*, and is the only preparation of the kind upon which the public can place a reliance. *It has never been known to fail in a single instance*, and is totally unlike the thousand and one so-called Hair Restorers, by which so many have been egregiously deceived.

It is delightfully perfumed, gives the hair a rich and glossy appearance, promotes its luxuriant growth, and will not soil the skin, scalp, or any article of apparel.

PRICE 75 CENTS PER BOTTLE.

Heimbold's Highly Concentrated

COMPOUND

Fluid Extract Sarsaparilla.

For

Purifying the blood, removing all diseases arising from excess and imprudences in life, chronic constitutional diseases arising from an impure state of the blood, and the only reliable and effectual known remedy for the cure of Scrofula, Scald Head, Salt Rheum, Pains and Swellings of the Bones, Ulceration of the Throat & Legs, Blotches, Pimples on the Face, Tetter, Erysipelas, and all scaly eruptions of the skin.

And Beautifying the Complexion.

NOT A FEW

Of the worst disorders that afflict mankind arise from the corruptions that accumulate in the blood. If all discoveries that have been made to purge it out none can equal

HELMBOLD'S

COMPOUND

Extract Sarsaparilla.

It cleanses and renovates the blood, instils the vigor of health into the system, and purges out the humors which make disease. It stimulates the healthy functions of the body, and expels the disorders that grow and rankle in the blood. Such a remedy, that could be relied on, has long been sought for, and now, for the first time, the public have one on which they can depend. Our space here does not admit certificates to show its effect, but the trial of a single bottle will show to the sick that it has virtues surpassing any thing they have ever taken.

Two tablespoonfuls of the Extract of Sarsaparilla added to a pint of water, is equal to the Lisbon Diet Drink, and one bottle is fully equal to a gallon of the Syrup of Sarsaparilla, or the Decoction as usually made.

☞ THESE EXTRACTS HAVE BEEN ADMITTED TO USE IN THE UNITED STATES ARMY, and are also in very general use in all the *State Hospitals and Public Stirling Institutions* throughout the land, as well as in private practice, and are considered as invaluable remedies.
